

## 2009.11.11 - blueCFD 1.6-1 Product/Service Released

blueCAPE is proud to officially present blueCFD, a new service package now available upon request, of a high quality cross-compiled build version of OpenFOAM® for Windows XP and Vista, 32 and 64bit, with some additional tweaks, executables and scripts, in order to maintain usability under a Windows environment.

For more information, go to the product page [here](#).

For release notes, go [here](#).

For instructions on how you can cross-compile OpenFOAM on your own, go [here](#).
